

High speed 1 to 32+ Drive Duplication System

Accutower professional duplicators by US Digital Media are user friendly standalone duplicators built for reliable, high volume production. Supporting the latest drive technology gives Accutower unsurpassed speed and reliability. Accutower duplicators range from 1 to 32 burners and are available in "daisy chain" configurations for up to 255 burners. With speed and size on your side you are sure to find an Accutower that fits your production needs.

Easy to Use

Reliability, Accuracy, and Ease of Use . . . Accutower is the first duplicator that provides all three. Burners from Pioneer, NEC, and LG ensure your copies are the highest quality from the first batch to the last. The 4 button controller is paired with an intuitive menu driven LCD display and mounting the controller at the top of the tower makes operation smooth and easy. The built in selection of command and utility menus is firmware upgradeable for future enhancements making Accutower the best choice for duplication now and in the future.

Features:

- High quality Pioneer 18x DVD±RW, NEC 18x DVD±RW, or LG 52X CDRW drives
